U. S. CHEMISTS MAY
WIN WITH NEW GAS

Endeavor to Find a Substance
 That Will Destroy En-
 tire Armies.

(By J. H. Duckworth, N. E. A. Staff
 Correspondent.)
 Washington, D. C.—American chem-
 ists working on the poison gas prob-
 lem may bring the war to a victorious
 close for the allies in their laboratories.
 They are working hard, together
 with British chemists, to find a color-
 less, odorless and invisible gas, which,
 sweeping over a sleeping army, would
 destroy it.

The Germans are also working to
 find such a gas. Whichever side finds
 it first will win the war.

The "gas shell" is not necessarily a
 shell. It may contain a liquid or even
 a solid, and it opens up the whole
 sphere of organic chemistry to be
 drawn upon for material.

In every German drive this year
 there has been a gas strategy. Full
 dress rehearsals in gas maneuvers to
 meet every possible situation were
 held by the Germans before an at-
 tack.</
